Our Inspiration

VISION AND MISSION

A boy supposedly once asked Michelangelo why he was working so hard chipping away on the block of marble that would become his greatest masterpiece: David. The artist replied, 'There's an angel inside this rock, and I'm setting him free.' The power of vision enables you to see a potential masterpiece in what others overlook. This is the core of Ricky's vision for every student to release the masterpiece within them.

What our brand stands for

SUSTAINABILITY.HONESTY.INTEGRITY.ADAPTABILITY

Often as entrepreneurs, we focus on the importance of being wildly passionate about the product or service we provide. Still, as a true entrepreneur, you need to be radically passionate about the people you serve. We believe in relational, not transactional, relationships. 90% of our students are referrals. Over 70% of our students have completed more than one Diploma. Often up to 4 Diplomas. WE CONTEXTUALISE OUR TRAINING TO ADAPT TO YOUR LEARNING STYLE, from BHP Billiton to the amazing mum returning to work. We work with you individually to find your strengths and methods of learning.

Google the RTO number. You can also go onto training.gov and check if any sanctions are recorded against the RTO number. This is important as you are committing to an investment of money, time and resources. It is crucial that you enrol in a reputable college. Our college has a 100% positive record with the Federal Government. Zero sanctions. Zero non compliances. We are also an approved Skills Assured Supplier with Queensland Government. Most importantly, we have had 100% positive student feedback for the last 13 years we are registered.

scholarship

Scholarship – we do not discriminate who should qualify – we have opened up our scholarships to all. You grow, our country succeeds.

OUR BELIEF

Neurodiversity is the concept that all humans vary in terms of their neurocognitive ability. Everyone has talents and things they struggle with. However, for some people, the variation between those strengths and weaknesses is more pronounced, which can bring talent but can also be disabling.

Neurodiverse/neurodivergent people tend to find some things straightforward and other things incredibly hard. This usually leads to an inconsistent performance at school or work.

Neurodiversity can be a competitive advantage when the individuals are in the right environment, using their strengths instead of constantly overcoming challenges. To achieve this, we must create inclusive learning spaces that reduce disabling factors and amplify diverse abilities.

Our assessment models are designed to be flexible, accomodating all types of learners. All projects can be contextualised to your work environment rather than a tedious case study.

Will you be just a number online? No learning should be on your own. We offer a very personalised experience with dedicated trainer support via email, zoom, text and phone. We promise a same-day response on weekdays. You are part of the World Changers club, and online learning does not mean you are not part of the family.
